

EDUCATION

Bachelor of Science in Computer Science and Engineering

Jan 2022–Jan 2026

Daffodil International University

- CGPA: **3.88** out of 4.00 (**Top 5% of the cohort**)
- Received a **90% tuition fee waiver** under a merit-based scholarship
- **Notable Courses:** Data Structures, Algorithms, Discrete Mathematics, Data Communication, Object-Oriented Programming, Database Management Systems, Operating Systems, Software Engineering, Machine Learning

Exchange Semester in Computer Engineering

Sep 2023–Dec 2023

Dongseo University, South Korea

- GPA: **3.94** out of 4.50
- Received the fully funded **Global Korea Scholarship (GKS)**, awarded by the Government of the Republic of Korea
- **Notable Courses:** Artificial Intelligence, Mobile Programming, Cloud Computing, Computer Networks

Research Interests: Deep Learning, Machine Learning, Computer Vision, Sustainable AI

RESEARCH EXPERIENCE

Graduate Researcher (Part-Time)

Jan 2026–Present

CSE AI Centre, Daffodil International University

- Conduct research in deep learning, medical image analysis and computer vision under the supervision of Dr. Fernaz Narin Nur and Associate Professor Nazmun Nessa Moon.
- Contribute to experimental design, results analysis, manuscript preparation and technical review for collaborative research publications.

THESIS

Tabular data-based lightweight convolutional neural network for electricity energy demand prediction

Supervisor: Associate Professor Nazmun Nessa Moon

- Developed **TLCNN**, a lightweight convolutional neural network designed to process structured tabular data directly for electricity-demand forecasting, eliminating the need for complex tabular-to-image conversion.
- Built a robust preprocessing pipeline for the **BanE-16 energy dataset**, incorporating missing-value treatment, feature selection, standardization, target normalization, Gaussian-noise augmentation and CNN-compatible data restructuring.

PROJECTS

- Breast Cancer Segmentation and Classification Using Hybrid Deep Learning** | [Project Link](#)
 - Developed a two-stage breast ultrasound analysis pipeline using U-Net to segment regions of interest, followed by classification of benign, malignant, and normal cases from the segmented images.
 - Constructed a hybrid VGG16–ResNet50–MLP model through feature concatenation, achieving 95.94% test accuracy, 95.93% F1-score, and 0.94 MCC across 123 test images.
- Lung Histopathology Classification Using Image Enhancement and Transfer Learning** | [Project Link](#)
 - Built an image-enhancement and transfer-learning pipeline using threshold-based segmentation and pretrained models including VGG16, ResNet50, EfficientNetB0, InceptionV3, and MobileNetV2.
 - Demonstrated the strongest performance with VGG16, reaching 80% test accuracy and 0.80 Macro F1-score on three lung tissue classes.
- Temporal Convolutional Network–Based Indoor Location Recognition Using BLE Signals** | [Project Link](#) | [Paper Link](#)
 - Built a TCN-based indoor location recognition system using BLE RSSI data from a real nursing care facility. Developed a robust preprocessing pipeline for noisy and imbalanced sensor data.
 - Implemented causal dilated convolutions with residual connections to model temporal dependencies across 22 indoor locations. Achieved 66% accuracy and 0.56 Macro F1-score, outperforming non-temporal baselines and improving minority-class recognition.

SKILLS

Programming: Python, C, Java
Machine Learning: PyTorch, TensorFlow, Keras, Scikit-learn
Data Analysis: NumPy, Pandas, Matplotlib, Seaborn
Research Tools: LaTeX, GitHub, Google Colab, Mendeley Reference Manager
English Proficiency: IELTS 6.5 – Listening 6.5, Reading 7.0, Writing 7.0, Speaking 6.0

EXTRA-CURRICULAR ACTIVITIES

- 2026**Participant**, 8th ABC Challenge, Kyushu Institute of Technology, Japan
- 2025**Participant**, Crack Dataset Contest, Daffodil International University [View Event](#)
- 2025**Volunteer Intern**, International Affairs, Daffodil International University
- 2024**Participant and Cultural Performer**, K-Culture Lover’s Night, Embassy of the Republic of Korea [View Event](#)
 - Represented DIU through a Bangladeshi musical performance during a cross-cultural program.
- 2024**Founding General Secretary**, Daffodil International University Research Society
 - Coordinated research activities, events, and member engagement.
 - Helped promote a collaborative research culture among students.
- 2023**Team Leader**, International Camp, Dongseo University, South Korea
- 2023**Event Volunteer**, Multi-Destination Education Expo, Admission.ac [View Event](#)
- 2022**Take-Off Programming Contest**, Daffodil International University [View Event](#)
 - Solved 3 out of 8 problems and ranked 111th among 350 contestants

AWARDS & ACADEMIC SERVICE

- 2025 **Research Award**, Division of Research, Daffodil International University [View Certificate](#)
- Recognized for **five** publications in Scopus-indexed journals.
- 2025 **Peer Reviewer**, Digital Health (Journal), SAGE Publishing [View Certificate](#)
- 2025 **Top Performer**, Computer Vision and Deep Learning for Medical Data Analysis Bootcamp, HIRL, DIU [View Certificate](#)
- 2024 **Research Award**, Division of Research, Daffodil International University [View Certificate](#)
- Recognized for a publication in a Scopus-indexed journal
- 2023 **Global Korea Scholarship Awardee**, Government of the Republic of Korea
- 2015 **Government Scholarship**, Bangladesh Education Board and Ministry of Education
-
